Dear Wojciech Drozd,

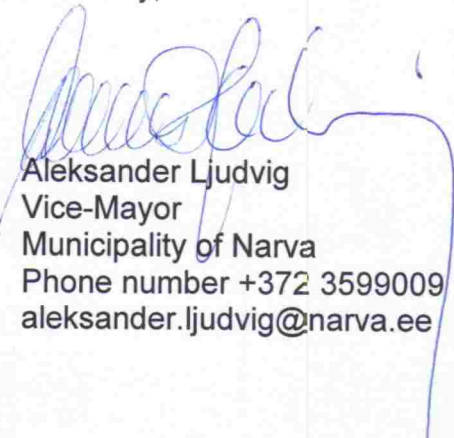

We are very pleased to have your invitation to join UBC's Commission on Health and Social Affairs. We agree that social welfare and healthcare are one of the primary priorities in all cities in Baltic region. It is an honour for us as well as a joint responsibility to contribute to our citizens' well-being and to possess latest information about correspondent policies and best practices of UBC members.

We admit that major amount of correspondence and discussions could be done with the help of modern technology avoiding travelling expenditures and saving a whole lot of time, therefore enhancing effectiveness of the commission's work.

We outline, that all certain activities, agreements and other actions, especially financial contribution is a matter of individual negotiations.

For the future communication around UBC's Commission on Health and Social Affairs you are very welcome to contact me, Aleksander Ljudvig, a vice-mayor in social affairs and healthcare in municipality of Narva using the contacts below.

Sincerely,

Aleksander Ljudvig
Vice-Mayor
